Built in Australia – Built to Heat – Built to Last!

CARINA

Carina 652 gas log fireplace

Carina 652 wood fireplace
(recessed installation)

Carina 652 wood fireplace with
optional decor firehood panel

(Henty) Carina 652 gas coal fireplace

Carina 802 wood fireplace with
optional decor firehood panel

Carina 802 wood fireplace

OLDE CHARM & OLDE CHARM SUPER

Four options are available to suit most homes and decor styles in the olde charm and olde charm super.

- 1 Fully recessed – ideal for new homes or major reconstruction. Firebox recedes into your own distinctive architectural detailing.
- 2 Partly recessed; a plain flange with the addition of a plain firehood guarantee overhead mantelpiece protection.
- 3 Victorian; as above with reproduction Victorian cast mouldings added to the flange for authentic appearance.
- 4 As above with decor firehood panel.

Olde Charm option 1

Olde Charm option 2

Olde Charm and Olde Charm Super only available in wood
Olde Charm Super is a larger version of the Olde Charm

**Olde Charm option 3
with optional bi-fold screen**

Olde Charm option 4

Olde Charm Henty

THE DELTA HEAT TECHNOLOGY

**How do we know it works?
Simply compare room heating sizes
with other open fireplaces**

Model **Maximum
heating area**

Carina 652	95m ²
Carina 802	130m ²
Olde Charm	190m ²
Olde Charm Super	250m ²

Heating areas will vary according to household design, insulation, climate and type of wood used.

Warranty

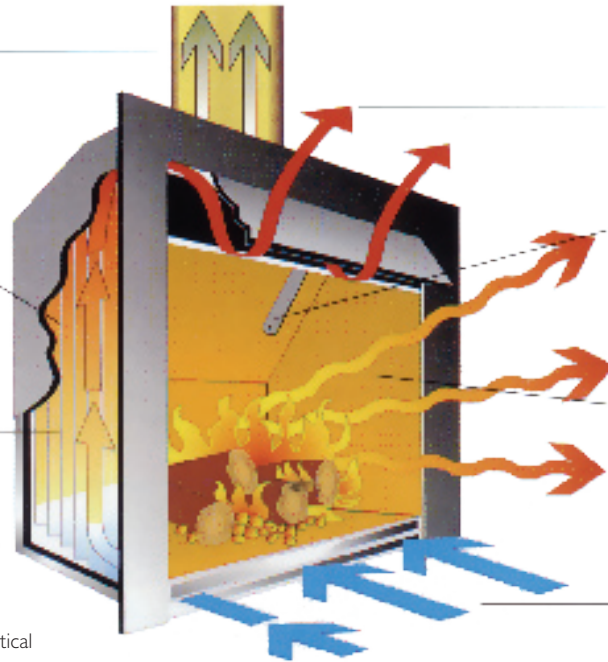

Your Delta Heat fireplace is guaranteed for 15 years

Exhaust gases out
(Cleaner natural
burn with CO₂)

Heat from all
5 faces of the
firebox causes
super heating
of air in
convection
chamber

Heat exchange
finning greatly
increases
heating surfaces
in convection
chamber

Direct burn option
greater efficiency
without a log receptacle

Convected heat:
rising hot air
is forced through
two outlets into
the room for
'all over warmth'

Adjustable
damper control

Splayed
firebox for
maximum
reflection of
radiant heat
in front (the
6th face)

Room air is
drawn into the
convection
chamber inlet

* With the Henty Carina, the Henty fascia is attached to a Carina heater. The required clearances will enable the Carina to be fully recessed so that the Henty fascia will sit flat with fireplace wall. As such an initial height clearance of 735mm with a depth of approx 55mm is required, then reduces to 590mm being the height of the Carina firebox at the rear. Refer Carina 652 dimensions.

** Refers to a tapered width.
